

## Z400 Flow Meter

The Z400 Flow Meter is designed to measure the exact quantity of fuel dispensed. They are designed for non-commercial use only.

These flow-meters are reliable, inexpensive, easy to install and simple to calibrate in the workplace.

Aluminium metering chamber, 1" BSP threaded connections. Mechanical register with 1x (4 Digit) resettable Total and 1x (8 Digit) Non resettable Total

## BELL-60 Electric Fuel Transfer Pump

The BELL-60 self-priming rotary vane pump features a novel mechanical seal which guarantees constant reliability, even in low temperatures.

Cast-iron pump casing, treated against corrosion and paint-finished.

Vane pump design with steel rotors.

230V AC 60Hz, Single Phase, Continuous duty rated.

Bypass valve built into pump casing.

Integral 100-micron filter, easily accessible for cleaning.

Induction motor with aluminium casing.

Grade of protection: IP 55.

1" BSP Threaded Connections.
